

Navigating Growth - A Systematic Study on Workplace Resilience & Lifelong Learning

*Course : Strategies for Professional Growth (SPG)
Project Milestone 1 Report — GP 1*

Prepared by - Team 13

Sameer Thakur (Team Lead) | 23F2003673

Anjali Gupta | 21F2000306

Tulika Chatterjee | 23F1001999

Gaurav Tomar | 23F1000805

Santhanu | 23F2004832

Project Management Plan

2

Structured execution to deliver deep insights on workplace resilience, strictly adhering to SPG evaluation standards.

Team Profile

Our group blends Data Science and Electronic Systems learners, combining highly analytical problem-solving with practical operational strategy.

ESFJ, Team Lead

Builds strong relationships, keeps the team organized, and maintains a positive, steady work rhythm

ESTJ, Operations Lead

Plans workflows, coordinates tasks, and ensures deadlines and deliverables stay on track.

INFP/Creative Tech

Brings calm, creative thinking, and curiosity about new technologies into the project work

ENTJ, Strategy Lead

Thinks big, leads decisions with clarity, and connects project goals to long-term impact.

INFJ, People & Reflection

Listens deeply, mediates conflicts, and helps the team reflect on growth and resilience.

Topic Selection - Project Theme & Focus

We want to understand how people in tech and data roles stay steady and keep growing when their work changes quickly. By listening to real career stories, we will see how everyday habits, learning choices, and mindset shifts help them handle disruption and design better futures.

*Curiosity &
Lifelong Learning*

*Resilience,
Flexibility &
Agility*

*Creativity &
Thinking Skills
(SPG W8)*

*Growth Mindset
(SPG W9)*

*Personal &
Professional
Development
(SPG W12)*

Resource Identification

We will use a mix of interviews and reference material to study resilience and lifelong learning in real workplaces

Our project is built on a small set of focused resources rather than many scattered links.

WEF Future of Jobs 2025

*Core Skills 2030, skill disruption,
and trends till 2030.*

SPG Course Material (W8, W9, W12)

*Creativity, growth mindset, and
personal/professional development
ideas.*

Qualitative Interviews with Professionals

*One interview per team member
with an external professional.*

Workplace & Career Articles / Talks

*Short articles, blogs, and talks on
resilience and learning habits.*

Short articles, blogs, and talks on resilience and learning habits

*Insights from our own personality
reports and career experiences.*

Discussion Plan & Draft Questions

When your work or tools changed quickly, what helped you stay steady and continue performing well?

How do you keep your skills up-to-date while managing regular workload and deadlines?

Can you share a time when a growth mindset or “learning from failure” helped you move forward in your career ?

What personal habits or routines support your resilience and lifelong learning at work?

Which skills from the WEF Core Skills 2030 list (for example, resilience, curiosity, lifelong learning) feel most important in your role today, and why

How do you handle situations where your role or responsibilities change suddenly? What helps you adapt without feeling overwhelmed?

What kinds of learning (courses, mentoring, side projects, etc.) have helped you most in staying relevant in your field?

When you face a setback or failure at work, what is your usual way of responding, and how do you turn it into learning?

Looking ahead to 2030, which skills do you personally want to strengthen to stay future-ready, and how are you planning to work on them ?

What advice would you give students and early-career professionals to build these skills before entering the workforce
